

COMPANY BROCHURE

Instinct Textile Ltd is Specialized and well experienced on Terry Products and Wiping Rags having a fairly good capacity of production of the products

COMPANY OVERVIEW

Our commitment is to provide quality products within the most competitive price along with the satisfactory service stranded to our customers.

Our mission is to manufacture and export the best quality of terry towels and wiping rags consistently to keep up the leading position in the market.

Our vision is to introduce our products and brand to all over the world and secure a long term competitive edge.

ABOUT US

WE ARE INSTINCT TEXTILE LIMITED

Instinct Textile Ltd (ITL) is one of the leading Textile & Garments waste fabric recycler and Terry Towel manufacture in Bangladesh. It is also the biggest wiping Rag producer and exporter in the country. ITL started its journey as M/s Instinct in 2006 as a small trading house. It has continuously been providing customized service and consistent product Quality since its inception.

Commitment & intense supportive manner of ITL towards its customer has established ITL as the most trusted & reliable Wiping Rag and Terry Towel supplier in Bangladesh

WHY CHOOSE US

- Quality product
- On time Shipment
- Understanding the customer perception
- Dedicated and efficient workforce

COMPANY PROFILE

BUSINESS OVERVIEW

Instinct Textile Ltd is Specialized and well experienced on Terry Products and Wiping Rags having a fairly good capacity of production of the products. It has been working for some of the biggest buyers in USA & Canada in a large volume round the year as well as some Japanese buyers with a very good reputation by meeting its customer satisfaction continuously. ITL values its customer similarly whether they are old or very new. Few key factors of ITL's success story are...

1. Quality product
2. On time Shipment
3. Understanding the customer perception
4. Dedicated workforce

COMPETITIVE ADVANTAGE

ITL is associated with a large number of garments and textile industries along with a huge number of local waste fabric collectors and suppliers from all over the industrial zones (Gazipur Savar, Tongi, Narayongonj, Chittagonj) in Bangladesh, which has given ITL a competitive advantage in collection of waste fabric from all other exporters. Because of this strong network and supply chain, ITL is able to provide best products at the most competitive price in a very big volume to its valued customers and keep them constantly happy and confident. Regarding Terry, ITL is associated with some very prominent and big spinners in Bangladesh and also the volume of yarn that is used regularly in the factory, has given ITL a very high purchase power in the yarn market, which facilitates a strong price negotiation power to ITL and has put them in a very competitive position than other factories of the country. ITL has been providing the most competitive price for best Quality products continuously to its customers around the world. ITL constantly competes with the Pakistani Terry market in terms of price and Quality and ensure its growth.

COMPANY CSR

As a textile and garment waste recycler, ITL is continuously contributing to the environment to keep it clean and healthy for the future generation. A part from that, ITL always feels its responsibilities to the society.

FACTORY DETAILS

ITL has three composite wiping Rag processing plants and a state of art Terry Towel factory near Dhaka city. Among Wiping Rag plants one is in Narayanganj, others are in Tongi and Gazipur, which are consist of separate Collection & Receiving point, Sorting & Cutting unit, Washing & Bleaching unit and Packing & Delivery unit within the same boundary which is one of the main Strength of ITL's consistent product quality. Only ITL has these types of composite facilities for wiping rag production in Bangladesh.

The Terry towel factory of ITL is situated in Narshingdi. All of its weaving, dyeing, stitching & packing units are well equipped and compatible for huge production to handle very large volume of orders. The location of the wiping rag plants and terry factories are very close to Dhaka city and within the appropriate industrial area for the respective products. ITL is capable to produce 400-500 Metric tones of wiping Rag and around 200 metric tones of Terry Towels per month.

CSR

HOW WE CONTRIBUTE

As a textile and garment waste recycler, ITL is continuously contributing to the environment to keep it clean and healthy for the future generation. Apart from that, ITL always feels its responsibilities to the society.

Currently, ITL is providing education expenses to 150 students and good number of financial support for the medical treatment (case to case basis) to the poor kids. ITL spends 1% of its total revenue to the child education and health care of the deprived poor kids in Bangladesh.

Beside this, staff of the Organization gets standard education allowance each and every month for their kids. ITL has a plan to establish a full free residential school and a Hospital with all modern facilities in Bangladesh for deprived and underprivileged kids, which will be operated by the CSR fund of ITL.

ITL Always Try To Stand By The Side Of The People, Affected By Any Natural And Social Disaster. All Of
